1378 Partial Revocation Updated 150318.docx; Part WD Revoke
Request Form Sunshine CG Update 150318.doc

Dee and Valerie,

I've attached three documents which I have amended from previous versions to address the Modification component of the request. The changes are highlighted in yellow on each document.

The INFO MEMO and DRAFT PLO are BLM documents, so the changes on them are FYI and input -- Please just let me know if these look OK to you.

The REQUEST FORM, on the other hand, is a FS document, so the changes require FS approval. The original request was submitted on January 23rd by Valerie with the memo from Scott Armentrout (signed by Corey P. Wong), so I am actually submitted the amended version back to you for FS approval. I don't need a new memo - just an email from either of you stating that the change to address the withdrawal modification portion of the requested action is OK with your management. (I know it's a no-brainer, but it's a bureaucratic necessity.)

You may hear from me some more tomorrow as I make sure all of the documents we've worked on previously are consistent with the proposed revocation and modification actions, as well as the EA. I'm going to do my best to keep my focus on this and then shepherd it through the Colorado BLM approval process so we can get it to Washington asap.

Respectfully,

Steve Craddock

Bravo. I tried to move the boundary with Adobe pro but it quickly exceeded my technical expertise. I'm glad you were able to do it so quickly. (Don't worry: I would have sent any changes I made to you for approval.)

Respectfully,

Steve Craddock
